

1st REGIONAL COURSE ON BODY CT/MRI

FORM FOR LECTURERS

title

MD

name and surname

Slavica Kovačić

title of the lecture

Cardiomyopathies

short CV

I graduated from the Faculty of Medicine in Rijeka in 1996. In 2001, I received a specialization in radiology at the Clinical Hospital Center Rijeka, the teaching base of the Faculty of Medicine, which ended in 2007.

Since the early beginnings of my career, I have been involved in interventional radiology. With the arrival of MRI at the radiology department, my interest in cardiovascular radiology is growing, and in 2008 I introduce cardiac MRI in our hospital. In addition to my interest in cardiovascular radiology, since 2015 I am more intensively engaged in neuroradiology and I use my knowledge of invasive procedures to add a new procedure - mechanical thrombectomy - to the list of the hospital's procedures, starting in June of 2019. I am an invited lecturer at the annual scientific conference of the ESCR European Society of Cardiovascular Radiology in 2019 and 2020.

I have been an assistant at the Medical Faculty of the University of Rijeka since 2011. I am the Secretary of the Croatian Cardiac Radiology section and also a member of the European Society of Cardiovascular Radiology. I am a member of The board of the Croatian Society of interventional radiologists which led to my membership in CIRSE. I am a part of the ESNR and I have all the modules completed in the area of neuroradiology.

I agree that the above information will be used on the course website entitled 1st Regional Course on Body CT / MRI.
